## The Resident Assistant

[Features](#) Â [Customer Feedback](#) Â [Product Samples](#) Â [2005 Topics](#) Â [Pricing Info](#)

**The Resident Assistant** is an exciting new program for and about Resident Assistants who work with residents in **assisted living facilities**. This is the only ongoing continuing education program designed to build the self-esteem and develop the professional skills of assisted living Assistants. **The Resident Assistant** was developed by leading experts on front-line eldercare workers and assisted living and is guided by a national advisory board.

### Features

**The Resident Assistant** has several unique features that make it successful.

1. An advisory board of **national experts in assisted living** developed the idea and regularly contribute to the publication.
2. It features a high-quality **newsletter for every Resident Assistant** that serves as a professional journal. This sends a powerful message to RAs about their value as employees. Each issue highlights a particular topic critical to their job.
3. The facility receives a **Trainer's Guide** that lets Resident Services Coordinators integrate the newsletter into training activities. Each guide provides training tips, continuing education goals, a list of additional resources, and a quiz for your Assistants. Used together, these tools can help fulfill and document a facility's ongoing training requirements.
4. The Resident Assistant is written in a lively, easy-to-read style. Issues of **The Resident Assistant** feature an interview with a **prominent expert** in caring for older persons and a section called "Speaking from Experience" highlights advice and **tips from The Resident Assistants themselves**. A sampling of upcoming issue topics includes:
  - Improving Communication Skills
  - When a Resident Dies: Handling Grieving and Bereavement
  - Nutritional Risk and Your Residents
  - Working with Residents' Family Members

### Customer Feedback

"It is a complete in-service, ready to deliver. It's very easy to use and full of helpful ideas. The aides absolutely love it! I love it too because it really cuts my workload."

- S. Thomas, Resident Services Coordinator
